### EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Eugene Mar on 11/14/04.

The application has been amended as follows:

Claim 1, lines 14 and 15, [second] is replaced by --first--.

2. The following is an examiner's statement of reasons for allowance: The claim is allowable because the prior art fails to teach two link assemblies each having a first plate and a second plate and a sleeve having two rack portions where the two first plates engaged with the rack portions by the teeth on the first plates as set forth in claim 1.

Cromwell teaches a frame having a board 22, a U-shaped bracket 21, a threaded rod 19, and a wheel 24. Also, the admitted prior art teaches a frame having a board 11, a U-shaped bracket 12, a threaded rod 13, a wheel 14, two first plates 15 and two separate teeth portion (1532 and 1533). However, Crowell and the admitted prior art fail to teach two link assemblies each having a first plate and a second plate and a sleeve having two rack portions where the two first plates engaged with the rack portions by the teeth on the first plates as set forth in claim 1.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue
